COMUNICADO 20210913

ADIAMENTO MUNDIAL DE VETERANOS

Informamos todos os jogadores Veteranos que por decisão do Board da Federação Internacional de Padel o Campeonato do Mundo de Veteranos por Equipes foi adiado para 28 de Março a 2 de Abril de 2022, conforme poderão consultar no Comunicado da FIP anexo.

Bom padel,

A Direcção

II VETERANS PADEL WORLD CHAMPIONSHIP

To the attention of the Associated members,

The aim of the present communication is to inform you about the latest news regarding the II Veterans Padel World Championship to be held in Las Vegas (U.S.) from 11 to 18 October of the current year.

As in public knowledge, the US government had decreed an entry veto for people from European countries in the Schengen zone, which in the first instance was planned to end in August. However, an extension of the restriction has been recently announced by the government, at least until next November.

We therefore inform you that, regardless of this circumstance, all the necessary actions have been taken aimed at granting entrance exceptions. In coordination with the North American Padel Federation (USPA), including the American institutions and government, although bureaucratically more extensive than we can afford, according to the dates initially planned for the Championship, an overall positive outcome has been achieved.

We hereby inform you that all relevant procedures have been carried out in coordination with the U.S. Padel Federation (USPA), including these with American institutions and government. The overall result is positive although bureaucratically more extensive than we could afford, according to the dates initially planned for the Championship.

In this respect we inform you that, although we have obtained the approval to manage the permits for our teams, due to the little margin of time available, the USPA, the Sports Department and the Board of Directors choose to postpone the event. This decision was taken with the aim of guaranteeing the entrance and presence of everyone in the country.

Beside the fact that the Championship is ready and can be held within the United States with no major issues, we understand that it should not be held until all the inscribed countries are allowed to enter.

The USPA has made significant progresses in the organization, and, beyond this governmental restriction, which forces us to postpone, the headquarters is still operational, allowing us to set the new date in Las Vegas, in the last week of March 2022:

- Final Date: **from 28 March to 2 April 2022**

In thanking you for your kind attention, we send you our most cordial regards.

Board of Directors
International Padel Federation
