

**EuroAmerica  
Padel Cup**

## **Communication 20210721**

On behalf of FEPA and CAPF, the continental Federations responsible for co-organizing the EuroAmerica Padel Cup, we regret to inform that due to COVID restrictions in Argentina, and in most American continent countries where the Cup could be hosted, on the set date of August 9<sup>th</sup> to 15<sup>th</sup>, we will postpone the organization of the Cup for 2022.

FEPA and CAPF do care very much for the safety of all Players, staff and public involved, and with the current health restrictions we could not guarantee an event with the glamour and dimension which such an event should have.

As you know the EuroAmerica Padel Cup was created to reinforce the relations between both continents, by having a true representation of the countries involved, and to be a celebration of the sport of padel. One that can only be attained if all agents involved can truly share and experience the sport spirit for which it was created.

We will regroup and soon will update you all on the date and place for the event in 2022, so we can see each other soon and have the opportunity to enjoy the healthy battle of the continents.

In the meantime, stay safe.

The Event Committee
